

SUNY CIT 2018 Sneak Peek

SUNY CIT 2018: Elevate Learning: Taking Education Higher

In today's rapidly-changing higher education environment, we strive to raise the bar to engage all learners. Through the application of innovative pedagogical practices and emerging technologies, we continue to open doors. We design for the future learner and create immersive educational experiences. We employ evidence-based practices and sustained innovation in a globally-connected landscape. SUNY CIT 2018 will feature pedagogical innovations, student-centered experiences, flexible educational settings, application of trending technologies, and creative approaches to assessing evidence of learning.

Featured Track: Immersive Learning

Today's learning can happen anywhere and at any time. Tomorrow's learners will have additional tools to engage with content. Presentations in this track look at how we are leveraging immersive tools, such as augmented reality, virtual reality, experiential learning, project-based learning, or other environments outside of the traditional classroom. Speakers will share their experiences with implementing immersive learning technologies or techniques. You won't want to miss these exciting presenters!

Keynote Speaker: New York Times best-selling author and American Institute for Medical and Biological Engineering Fellow [Barbara Oakley](#) will be this year's keynote speaker on Thursday, May 24th at 10:45 am. Dr. Oakley's work focuses on the complex relationship between neuroscience and social behavior. Her research has been described as "revolutionary" in the Wall Street Journal—she has published in outlets as varied as the Proceedings of the National Academy of Sciences, the Wall Street Journal, and The New York Times. She has won numerous teaching awards, including the American Society of Engineering Education's Chester F. Carlson Award for technical innovation in engineering education. Together with Terrence Sejnowski, the Francis Crick Professor at the Salk Institute, she co-teaches Coursera – UC San Diego's "Learning How to Learn," the world's most popular massive open online course with over two million registered students. Barb is a New York Times bestselling author—her upcoming book Learning How to Learn is geared to give kids aged ten on up neuroscientific tools to help their learning.

SUNY CIT is thrilled to host Dr. Oakley for what promises to be an exciting keynote!

Preparing for SUNY CIT 2018: Conference registration opens in February!

Hotel reservations should be made as soon as possible to ensure the conference rate.

On-campus housing options are also available.
